Members wishing to give presents to the veterans at Coral Gables VA Hospital should bring them to the meeting on December 12.

Mrs. Nannie Mallory, a retired school teacher and the mother of Mrs. E. D. Sims, was received as a new member of the club.

Members planning to attend the luncheon given by the Belle Glade Woman's Club at the Community Center on January 3, were asked to call the secretary of the Pahokee Club and make reservations.

County Furnishes 2 Panel Members

Two members of the official county family will take part in a program of instruction for new county commissioners to be held at Tallahassee next month. Commissioner Lake Lytal and County Attorney Harry Johnston will appear on panels of instruction for the State Association of County Commissioners.

Commissioner Paul Rardin was on the program two years ago and his topic was: "Relations between Public Bodies and the Press."

At Monday's commission meeting it was pointed out that Palm Beach County is fortunate in having a group of officials who have attained rating high enough in state official circles, that they are called upon often to appear before other commissioners in Florida.

Blue Devils To See Miami And Florida

A crowd of 42 football enthusiasts from Pahokee high school, including the Blue Devil football squad, managers and coaches will witness the annual game in the Orange Bowl Saturday night between the University of Miami and the University of Florida.

A group of Blue Devil supporters made plans for the trip long before the final game of the season between Belle Glade and Pahokee. A bus has been chartered and will leave Pahokee in time for the group to have hot dogs before the game at 8:15 o'clock. Good seats for 42 have been purchased by the group of supporters.

The Palm Beach County Commission this week joined in helping arrange what has the mark of being one of the most impressive ground breaking events ever staged in South Florida.

The board voted to spend up to \$2,500 to help finance a ceremony to be held Dec. 8 which will officially start construction of Florida Atlantic University at Boca Raton.

According to Tom Fleming, Boca Raton, chairman of the University committee, the entire Florida legislature plus scores of other state and county officials will be invited to attend.

One of the principals at the ceremony will be Governor Farris Bryant.

Commissioners Ben Sundy and Paul Rardin who joined in making the motion to make funds available for the event, termed "the ground breaking a red letter day for both the county and the state—an event which will draw national publicity."

Lions Hear About Taft-Hartley Act

Attorney Milton McKay was guest speaker at the luncheon meeting of the Pahokee Lions Club held Tuesday with the president, Kyle Scott, presiding.

Introduced by Mel Stanley, Attorney McKay spoke on the Taft-Hartley labor act, which is administered by the NLRB, as related to farm labor. He stated that originally this act had not been applied to farm labor, but now it covers some types of farm operations. He further stated that since this administration seems to favor workers over management that he felt unions would move into the farm labor field.

During the business session, the Club took action to dispense with the regular luncheon meeting next Tuesday, in order to meet with members of the Canal Point, Belle Glade and South Bay Lions Clubs at the annual football banquet which will be held in the Belle Glade High School cafeteria on December 7, at 7 p. m.

The guest of student member, Mike Watkins, was Miss Gale Sears, one of the sponsors at the Pahokee - Belle Glade football game.

Contract Is Let To Raise Dike 6 Feet

The federal government has let a contract for raising the dike around Lake Okechobee from Bacom Point south of Pahokee to the St. Lucie Canal. The U. S. Army Corps of Engineers let the contract for this work to James P. Cross of New Iberia, La., in the amount of \$2,708,878.00.

The contract calls for excavation of some six million yards of material from the lake and piling the material on existing levee stretching from Pahokee to the St. Lucie Canal. Present levees average about 32 feet in height. They will be increased to an average height of 38 feet.

Tree islands also will be constructed inside the lake dikes from a point just south of Pahokee to the Palm Beach-Martin County line, a distance of about 13 miles. Purpose of the tree islands is to protect the levees against wind-swept waves during severe storms. A separate contract will be awarded for planting trees on the islands.

Work now is underway on two earlier contracts awarded by the Army Engineers to raise the dike along the south rim of the lake.

Belle Glade Wins First League Title

Two ties and an eight-touchdown rout marked the windup five-game card for the Suncoast Conference's 13th football campaign Wednesday night as Belle Glade won its first league title with an unbeaten record.

In the night's top game the new champs fought a 14-14 deadlock with arch-rival Pahokee which kept the Rams' record clean from defeats and ahead in the final standings by a game over the sunnery Blue Devils. Neither of these clubs were figured to be in the pennant fight when hostilities started in September, and only an upset loss by Pahokee in Ft. Pierce on Columbus Day prevented the race from ending in a co-championship.

The pennant favorites, Lake Worth and Seacrest, renewed their keen rivalry at Lake Worth with the invading Seahawks romping 27-7 for third place. In three non-league contests on the night's schedule, Forest Hill dominated guest Palm Beach for the first time 13-0, Ft. Pierce and Vero Beach struggled to a 6-6 stalemate with both touchdowns coming in the final period, and host Okeechobee crushed Stuart 51-0.

Fred Mayer won the league scoring title as he scored all of Lake Worth's points to edge out Seacrest's Dan Gibson 74 points to 72. Gibson scored three times at Lake Worth. Mayer's extra point was his 20th placement of the season as he boosted the new conference record that he set five days previous at Stuart. However, with Mayer making all of Lake Worth's extra points this fall, the Trojan's fell one shy of the team (continued on page 8)

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Possibility that the Reservation Fire Department and the County Commission may be approaching an agreement for use of county land as a site for a new fire department headquarters, appeared likely this week.

Two weeks ago the commission turned down a request for use of a plot in John Prince Memorial Park as a site for the proposed building.

This week, a representative of the fire department said both sides have been considering possibility of a temporary lease agreement for the land providing a temporary quonset hut type building is erected.

The commission is scheduled to review the request at its December 10 meeting.

George Frost, assistant county engineer, was named acting county engineer this week in the absence of Steve Middleton, county engineer.

The county commission approved a resolution authorizing Frost to sign necessary legal documents and to assume responsibility for the engineer's office.

Middleton has been away from his desk for several weeks due to an illness which has kept him hospitalized most of the time.

The county commission this week adopted a schedule of board meetings for coming weeks.

The next board meeting will be held Friday, Dec. 21st because of the Christmas holidays.

Final meeting of the present board was set for January 4th and the board's annual reorganization meeting set for Tuesday, January 8th.

County commissioners Monday turned down a request to swap land with the Lake Ida Development Corp.—land located at the south end of Lake Ida at Delray Beach.

The board declined the land firms offer to trade county owned land for some development company ground. The county's right

of way department advised the board that the county land was larger than the private land and that the county holdings was two to three times more valuable.

In another action, the commission voted to convey a county owned lot inside Delray Beach to the municipality in lieu of paying a paving assessment on the lot.

The commission also: Authorized spending an estimated \$3,800 for right of way for extension of Kirk Road south from Forest Hills Blvd.

Voted to deed a strip of county land on the shore of Lake Okeechobee to the Central and South Florida Flood Control District to allow raising the lake levee from about five to ten feet.

Voted to conduct a traffic count at two Lantana intersections to determine necessity for traffic signals at the two locations.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{2}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{2}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{2}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH U. S. SAVINGS BONDS

 Growing with the Future

*"Today we need a nation of Minute Men
citizens who regard the preservation of freedom
as a basic purpose of their daily life"*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unrelenting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

For 20 years America's newspapers have published Savings Bonds ads at no cost to the Government. The Treasury Dept. is grateful to The Advertising Council and this newspaper for their patriotic support.

Biblical Musum To Open At Lake Wales

LAKE WALES—Leone Chaney, well-known sculptress, will open a four scene exhibit of Biblical historical events, skillfully done in wax, at the Scenic theatre building in downtown Lake Wales, Wednesday, November 21 at 2 p. m.

To be known as Leone's Biblical Museum, the display of life-like and life-size figures will be open to the public daily, no admission charge until at least December 31. Mrs. Chaney chose Lake Wales as the site of her exhibit, after inspecting other locations in Florida, because of the religious and cultural grouping here of such well-known nearby tourist attractions as the Black Hills Passion Play Cypress Gardens, Great Masterpiece, Bok Tower and Casa de Josefine.

She will be present each day, including Sundays and holidays, to personally greet visitors. Her coming to Lake Wales is sponsored by the Lake Wales Amphitheatre Corporation (winter home of the Black Hills Passion Play) and the Greater Lake Wales Chamber of Commerce.

Originally from St. Louis, Missouri, she learned the art of sculpturing in wax as a very young girl under the guidance of her uncle, B. W. Christophel, who was considered outstanding in the profession. One of her most severe critics and instructors was her father, Charles Bremser, a prominent St. Louis artist.

If sufficient public interest is shown, Mrs. Chaney will probably decide to locate here permanently, and maintain a studio to continue her work.

The four Biblical scenes so realistically depicted are the well-known Last Supper, the Crucifixion, Christ Praying at the Rock, and the Birth of Christ.

Mrs. Chaney has previously exhibited her religious characters in other parts of the nation and has received many favorable press reviews and letters of praise from the public.

She has created personally over the years every one of the figures, first modeling them in clay, using glass surgical eyes; the teeth are professionally made dentures. Human hair, imported from Tibet, is inserted, one strand at a time. The robes and scenes settings are her own design.

Foot Ball Playoff Plan Is Suggested

GAINESVILLE — Florida high school principals have voted approval of a state football championship-playoff plan. It will likely be put into effect in the 1963-64 school year.

Lafayette Golden, executive secretary of the Florida High School Activities Association, announced that a proposal for a 12th game on the football season has been approved. This would permit grid championship playoffs in various classifications for a state crown. He stressed, however, the playoff is not mandatory and schools do not have to participate in the playoff plan.
